

NAME .....

## Estimating and Comparing Numbers of Objects

USS Constitution's Spar Deck

Courtesy United States Navy

**Estimate:** How many cannons are on the Spar Deck? \_\_\_\_\_

**Actual Number:** There are \_\_\_\_\_ cannons on the Spar Deck.

**Circle:** There are an **odd** or **even** number of cannons on the Spar Deck.

How do you know? \_\_\_\_\_

NAME .....

1. Does the Gun Deck or Spar Deck have more cannons? \_\_\_\_\_

Write a number sentence using  $\gt$  or  $\lt$  to show your answer. \_\_\_\_\_

2. How many more cannons are needed to have an equal number of cannons on each deck?

\_\_\_\_\_

3. Write a number sentence to show how many more cannons there are in all on both decks.

(Check by estimation.) \_\_\_\_\_

4. Write a number sentence to show the difference in number of cannons on the decks.

(Check by estimation.) \_\_\_\_\_

5. If the Gun deck and the Spar deck had an equal number of cannons, how many cannons would there be in all? (Show your work.)
